Computer Pressure Mapping Proves Overall Effectiveness of the Freedom Air Cushion

For over 10 years, Star Cushion Products, Inc. has been a leader in the wheelchair cushion market, providing high-end cushioning for skin protection and overall comfort to their many customers. Now, with the Freedom Air Cushion, we are bringing our technology to the motorcycle rider. In the pressure maps above, you will notice red and yellow areas that were mapped on a standard motorcycle seat. These indicate high pressure areas leading to pain and discomfort. Notice on the Freedom Air Cushion these high pressure areas are all but eliminated giving you the **FREEDOM** to ride longer - travel further. It's time for you to:

Experience the Freedom of

The Freedom Air™ motorcycle seat cushion is like no other motorcycle cushion on the market. The finished design of the cushion and cover have been completed with only you, the rider, in mind. Our unique design will allow you the freedom to ride longer and travel further. To experience comfort while enjoying the freedom you live for, the freedom you ride for.

Our design includes

1. A recessed area in the back of the cushion that provides greater pressure relief under your tail bone for added comfort.
2. Large outside air cells that hug your hips for a better ride.
3. Tapered air cells under the thighs providing a better, more natural fit to your seat and cycle.
4. A V-Shaped front for a better fit to your seat complete with recessed air cells in the front for added comfort and relief where it counts.
5. Two separate valves that inflate and adjust the right and the left side of your Freedom Air Cushion for a more stable ride.
6. Interconnected air cells in each compartment that let you sink into the cushion.
7. Individual air cells minimize vibration and act as mini shock absorbers for the Ultimate Riding Experience.

"I felt the difference on the Freedom Air immediately. More comfort and a better ride. It doesn't get any better!"

M. Truran
O'Fallon, Illinois

* Cushion Shown without Fitted cover.

Comes complete with a black fitted cover. The cover has a non-skid bottom so that it will not slide on your existing seat while riding and comes complete with attachment loops to secure to your seat if you choose. When you're done riding for the day, simply remove the Freedom Air and place in your saddle bag, bring inside, or use at any event as a comfortable seat cushion.

For more information, to find a dealer near you or to purchase the Freedom Air Cushion, call toll free at 1-888-277-7827, 618-539-7070, or fax us at 618-539-7073.
